

Natural avalanches in Hyalite

Hyalite - main fork

Northern Gallatin

10/29/2019

Code

SS-N-R1-D1.5-I

Latitude

45.44720

Longitude

-110.96200

Notes

A skier in Hyalite wrote, "Natural activity that I observed was failing at new/old interface and (generally) occurred in predictable, wind loaded locations near ridge lines. The one exception is the avalanche with the freshest debris; looks like it failed right at the end of the storm in a somewhat sheltered, mid-slope location."
