Red Mountain

Date Sun, 01/23/2022 - 12:45 Activity Skiing

Not sure if these have been reported yet. 2 large avalanches on the east face of Red Mountain spotted from the top of Ernest Miller Ridge that looked pretty old (a few weeks or longer?) Also, most slopes around Bacon Rind/Ernie Miller had a new layer of surface hoar on top.

Region Southern Madison Location (from list) Red Mountain Observer Name Jacob Zimmerer
