

Snowmobile triggered wind slab

Date

Thu, 04/06/2023 - 21:45

Activity

Snowmobiling

Small wind slab triggered by snowmobile. Slope was assessed by group as wind blown before climb. No one was caught. East facing slope, Storm castle Ridge.

Photo one shows trigger point where the Snowmobiler carved hard and set off the slab deeper in the snowpack

Region

Northern Gallatin

Location (from list)

Storm Castle

Observer Name

Ryli Schlueter
