Wet Loose Avalanches in Argentina Bowl

Argentina Bowl Bridger Range 4/11/2024 Code N-R2-D2 Elevation 9000 Aspect E Latitude 45.78690 Longitude

-110.93500 Notes

Driving home from Bridger Bowl I spotted a number of wet loose avalanches in Argentina bowl. It was 1:30 PM when I saw them and the sun was still blazing. I would expect there was more activity as the afternoon progressed.
