

ECT / CT - Northern Gallatin

Date

Sun, 12/15/2024 - 18:00

Activity

Snowmobiling

On our first column test was CTX and slid on the saw cut, in the video we didn't get the same result but still very reactive.

During our extended column test we were at 9500ft on a North slope.

ECTN second tap storm slab

ECTN twenty three on ground facets
